

ROCKING ENERGY GENERATOR – CONFIDENTIAL PATENT PENDING - © H Duerden & S Grodyski

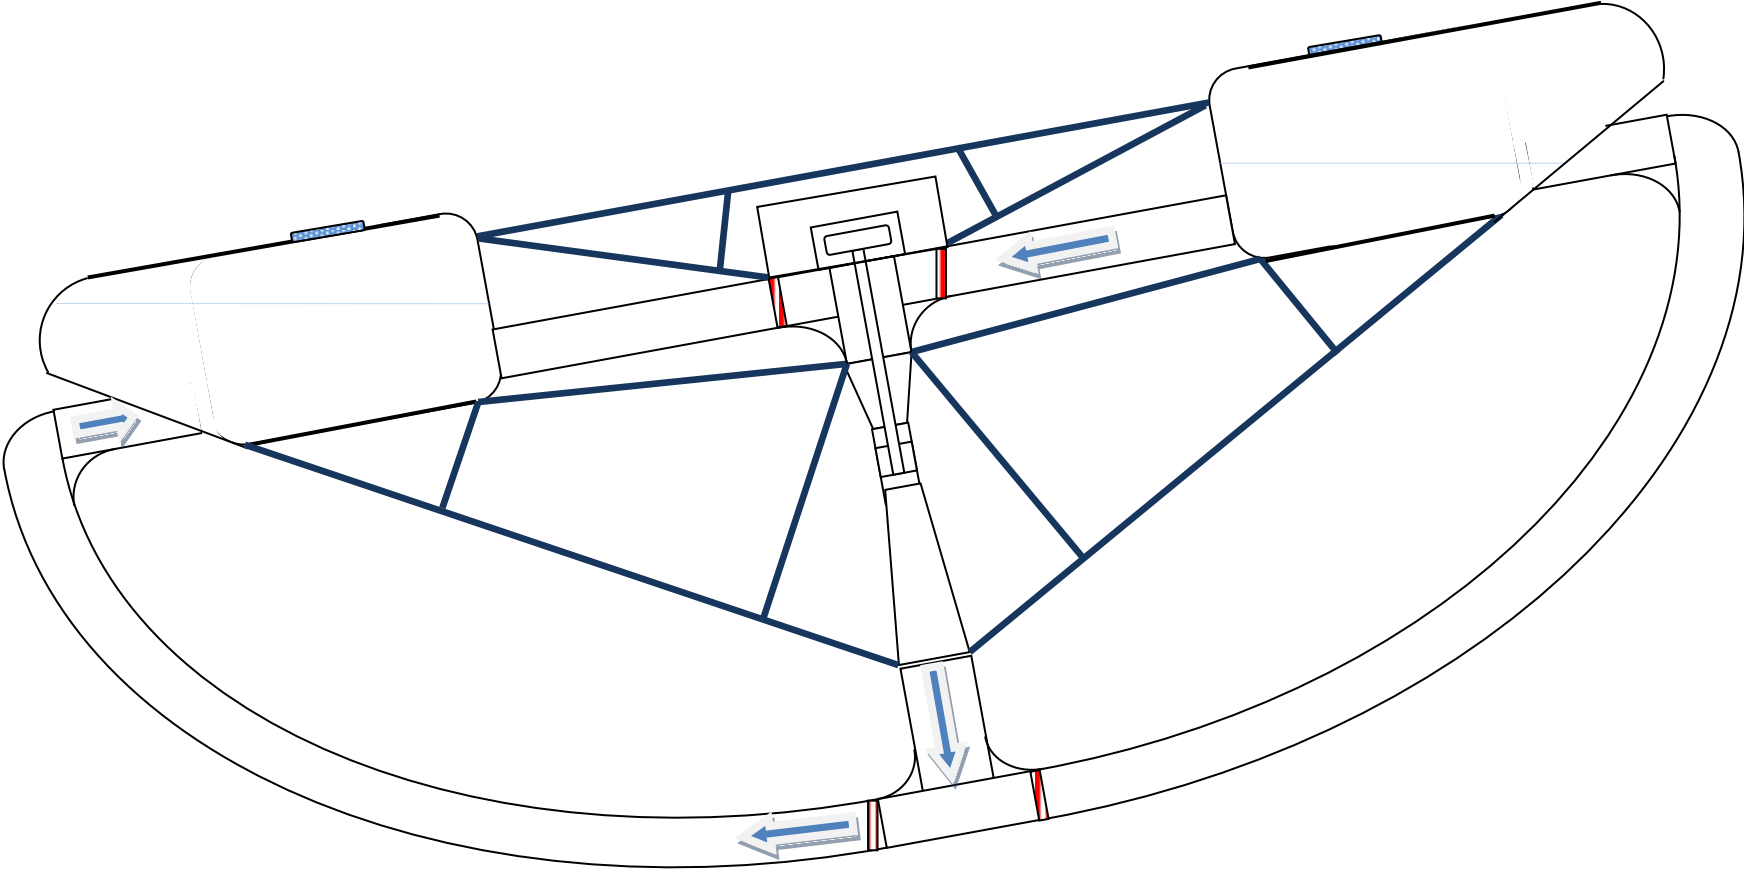

**MEDIAN
POSITION**

Benefits of "REG" system(s) deployed in natural wave environment

- ✓ No exposure of internal turbine to sea water or marine life
- ✓ Straightforward concept and operation
- ✓ Operable in shallow water, and in multi-system 'barrier'
- ✓ Short power line link from anchored system to shore
- ✓ Tunable (prior to deployment) to different heads by employing different fluids of appropriate weights
